

Shaving Foam Color Mixing Sensory Bag

You will need:

- 2 colors of paint (your choice)
- Plastic zip sandwich bag
- Shaving foam
- Duct tape

Instructions

1. Pour a different color of tempera paint into each corner of the sandwich bag.
2. Fill half the bag with shaving foam.
3. Carefully remove all the air from the sandwich bag.
4. Securely zip the top of the sandwich bag.
5. Cover the closed top of the sandwich bag with duct tape.
6. Children can now mix the paint colors and shaving foam together.

Note: The shaving foam mixture can be used as paint for further sensory exploration.

*Please note that the shaving foam mixture can stain clothing and hands.
